RE: Subdistrict No. 1 Replacement Water Accounting for the month of February 2023.

Dear Mr. Cotten,

The following is the Subdistrict No. 1 Replacement Water Accounting for the month of February, 2023. As per the Terms and Condition No. 7 of the 2022 Annual Replacement Plan (ARP) Approval for Special Improvement Subdistrict No. 1 of the Rio Grande Water Conservation District document received from Colorado State Engineer Kevin Rein May 1, 2021, this data will be broken down to include the following: Subdistrict diversions, depletions, replacement sources and river calls on a monthly basis.

## Synopsis of February 2023 Replacement Water Operations:

Under the direction of the Division 3 Division Engineer and the District 20 Water Commissioner, Subdistrict No. 1 continued replacing projected stream reach depletions on the Rio Grande for the month of February on a daily basis pursuant to the amounts presented in the approved Subdistrict's 2022 ARP. On February 1st, Subdistrict No. 1 continued utilizing Closed Basin Project production to the Rio Grande in the amount of 2.393 ac-ft./ day to begin replacing projected depletion obligations in Stream Reach 2. There were no positive depletions in Stream Reach 1 or 3 identified in the response function in February, but rather accretions back to the river within these reaches.

The following Tables 1 and 2 illustrate the Subdistrict's replacement water plan operations on a daily basis during February, 2023. Detailed accounting for daily administration can also be found on the Rio Grande Water Conservation District's website (<u>http://rgwcd.org</u>) under Subdistrict No. 1 Annual Replacement Plan.

**Table 1**: Subdistrict No. 1 depletions per Table 2.5 in the accepted 2022 Annual Replacement Plan (ARP): Subdistrict No. 1 Monthly Net Stream Depletions for 2022 ARP Year submitted to the Colorado State Engineer's Office on May 1, 2022. February 2023 Depletion Obligation Total: 67 ac-ft. 2022 Replacement Operation Total: 67 AF (all units are in acre feet).
